## *EN'LESS*

En'less is an elegant, spacious and luxurious new Maiora 24S motor yacht that is available for both private and corporate charter. With a capacity for 12 day visitors and 8 to 10 overnight guests, she is ideal for cruising holidays and entertaining friends. En'less boasts a wide range of water sports equipment including a Zodiac 350 jet tender, sailing dinghy, windsurfer, kayaks, snorkelling apparatus, and fishing equipment. The Jacuzzi on the fly bridge is a unique touch, allowing guests to soak in hot bubbles whilst watching the sun setting on the sea, or providing a grandstand view of the waterborne antics of more daring companions. En'less is fully equipped for entertaining: her spacious, air-conditioned interior boasts a saloon with a full audio visual entertainment package. The separate dining area has comfortable seating for eight persons. Enless has a fully equipped galley and we would be pleased to discuss any catering requirements you may have. The accommodation is made up of four cabins all with private en suite facilities, together with full audio visual entertainment packages.
